Development History	7 th July 1998: 'MTN Setagaya Music Conversation Studio Kamiyama 5 Chome Music Studio' established. 20 th February 2012: Organization name changed to 'MTN Kokoro Talk Music Studio'

※ The Music Therapist Network (abbreviated to MTN) aims to connect certified music therapists across the length and breadth of the country who come from the same theoretical background and commonly use the same skills of approach. We also aim to cooperate and co-ordinate with these therapists in order to respond to the needs of caregivers, clients and target groups from various geographical areas and to create a network allowing therapists to share work and co-ordinate with each other when there is a change in the therapist's life or environment. Even now as Kokoro Talk Music, this aim is still maintained.

'We always perform for you, in your town, to suit your setting, always aiming to perform songs that speak to you and reflect your colourful life (my song).'

At NPO Kokoro Talk Music Studio, we want to create a network with fellow music therapists who also follow this approach.
